It would be well for that individual who "swipes" news items from Expositor columns to please give credit or else get the news as we do. A thief is a detestable character in any community.

The Thanksgiving edition of Mere Digs, published in Yale once a week, made its appearance last Saturday and contained several pages of town news besides many items of real fun. This paper is gotten up in pamphlet form, eight pages, 2 1/2 by 6 inches, and is interspersed with engravings which are made by James Monroe and to say that the boy shows talent in this work is no exaggeration. Charley Wells, Jr., is editor and for one so young he deserves much credit for the bright, spicy tone of the paper, and its practical make-up.

During the past week the editor and his family have fared exceedingly well. We have received a cord of wood, three bushels of potatoes, a twenty-five pound sack of flour, a spare rib, and venison stew, and roasts galore. The chances are we will live high for a time and if some of our other friends will come in with the good things of life when the above donation is exhausted, no doubt we will make out to winter through. James Wallace has our thanks for a nice venison stew.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Filley, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. Sold by Grant Holden.

A good way for the business men to spend an occasional spare evening would be to get together and talk over and plan for the material advancement of the village. Other places are securing new industries of various kinds and Yale should not be behind in these matters. This is an era of general prosperity, and we should secure some of the good things that are being passed around before it is too late. No one denies but that the Business Men's Association has brought about a great deal of good. Revive it and take up matters that will bring general prosperity to the village. The Expositor always has assisted and is now ready to assist any enterprise.

Storm doors have been placed at the entrance of the post-office.

What would be considered a cross between the can and Scotch reel was very cleverly executed on Wednesday by Will Starks. Bill is not in the habit of performing these peculiar feats only on very rare occasions like the following: Born to the wife of Wm. Starks on Wednesday afternoon a fine fifteen pound boy. Mother and son are doing nicely but Will is not yet out of danger.

In a few weeks a new coin will be in circulation which will be a distinct departure from all rules and usages in American coinage. Many remember what a nuisance the old three cent piece was, just the size of a dime and could hardly be told from it. It has in consequence of the general rage against it, disappeared from circulation. The need of a three cent piece has continued ever present, however, and the government met the occasion by the adoption of the Chinese idea, made the coin with a hole in the center. It has been nicknamed "The doughnut" and will doubtless be known by that name as long as it continues in circulation.

### Doc's New Residence.

Yale is fast being ornamented with fine residences. Every year quite a number are erected and our village is therefore steadily on the increase. What suggested this item to us was the recent purchase of thirty feet of real estate from J. A. Rapley and James McCall, adjoining on the south of the latter's residence property, by Dr. A. Pollock, who will begin next week the erection of a modern brick residence. The location selected by the Dr. for a home is one of the most commanding in the village, and it will only be a matter of time when this portion of Main street will be one solid row of dwellings from the old Commercial house to Rath's hill. By the way what is the meaning of the sudden and mysterious move of the Dr's? Can it be possible that he contemplates discarding the miseries and loneliness of bachelorhood and come over to the ranks of the benedicts? If such is the case, as his actions would indicate, we are glad that the Dr. is going to remain permanently with us, and we extend him our most hearty congratulations.
